The Student Resistance Handbook Cevin Soling

The Student Resistance Handbook provides children with information on how they can effectively fight back against their school and work towards abolishing this abusive and oppressive institution. Legal non-violent tactics are presented that are designed to: disrupt the operation of school, substantially increase the costs involved in its operation, and make those who work for and support schools as miserable as they make the students who are forced to attend. The text was conceived to empower youth to struggle against the helplessness, passivity, and despair that schools were designed to instill. John F. Kennedy accurately claimed that "learning without liberty is always in vain." This Handbook provides students with tools to fight for their liberty in order to attain a real education.
