The bar soap industry is thriving in much of the world, especially in the developing countries, where toilet and laundry bar soaps are produced in large quantities and many producers are in business, from large multinational firms to small local manufacturers. In the rest of the world, “boutique” soap manufacturers are producing elite bar soaps for a select group of healthy “green” consumers. **Soap Manufacturing Technology** is drawn from the proceedings of the AOCS SODEOPEC Conferences of 2006 and 2008. Pivotal information from these meetings appears in this indispensable book.
