Cell Biology: A Short Course Stephen R. Bolsover, Elizabeth A. Shephard, Hugh A. White, Jeremy S. Hyams

This text tells the story of cells as the units of life in a colorful and student-friendly manner, taking an "essentials only" approach. By using the successful model of previously published "Short Courses," this text succeeds in conveying the key points without overburdening the reader with secondary information. The authors (all active researchers and educators) skillfully present concepts by illustrating them with clear diagrams and examples from current research. Special boxed sections focus on the importance of cell biology in medicine and industry today. This text is completely updated from the successful "Cell Biology, A Short Course, 2e," includes new chapters and now has a supporting website with tests and animations for students and power point slides and supplemental material for instructors:
