Read the final book of the Beverly Hills Book Award Winning Glide Trilogy, perfect for fans of sci fi masters such as Asimov, Crichton, and Gibson. The Glide Trilogy has been read more than six million times on Wattpad, has received a starred review from Publishers Weekly (book 2), and has been queried for a future motion picture.

Nothing can stop the Neos...

With nearly all of civilization enslaved by Neology's augmented reality, no authority in the world can challenge the Neos. Only a small band of hackers, who call themselves Seraphs, dare to roam the virtual landscape causing minor disruptions. They are loners who require a leader to mount a serious insurrection.

But the Neos are only a means to an end...

For Dr. Janot, Neology and the Neos merely planted the seeds--both literally and virtually--for his much grander plan. With Maddy his prisoner, he intends to use her as bait to draw out his archrival, Magigate, and to demonstrate the sweeping range of his vision.

And the origin of a new master species...

Now that each and every human has been forced to join his Neology network, Janot controls them like any other networked device; and all it takes to terminate them is a simple instruction set, which will pave the way for the ascent of his engineered Nephilim species. But Janot's enemies will not succumb without a fight. Ever-resourceful Lisa takes charge, rallies the remaining knights, and marshals a diverse array of allies to disrupt Janot's plans.

Unless Magigate Returns...

When Magigate and the Prophet finally find their way back from the past, the world is in the clutches of Janot's deadly Neology game, and Magigate's closest allies have been captured or killed. Magigate must employ all his genius and forge unlikely alliances to stop Janot and save his friends. But even if he succeeds, he will never be able to deny the role his own science and inventions have played in unleashing chaos now, in the past, and probably even the future.

Gene.sys brings to a satisfying yet troubling conclusion the tale of the genius inventor Captain Magigate whose seminal invention, Glide, ignited a new era just as the invention of the printing press kindled the Renaissance; the steam engine, the Industrial Revolution; and the computer, the Information Age.
