Emergency Medicine Research Handbook for Residents and Medical Students

Emergency Medicine Research Handbook for Residents and Medical Students

This handbook is the result of over two years of discussion within the EMRA Research Committee about how to assist emergency medicine residents and medical students who are just getting started in research. The scholarly project that all emergency medicine residents are obligated to complete during residency is an opportunity to get your feet wet in research, discover answers to clinical questions you may encounter in your practice, and maybe even find meaningful mentorship that will outlast residency. This handbook is an attempt to generate excitement about your project and serve as both an inspiration and a guide to your research endeavors.
