Survival Analysis: A Self-Learning Text (Statistics for Biology and Health)

David G. Kleinbaum, Mitchel Klein

Survival Analysis: A Self-Learning Text (Statistics for Biology and Health) David G. Kleinbaum, Mitchel Klein

An excellent introduction for all those coming to the subject for the first time.

New material has been added to the second edition and the original six chapters have been modified.

The previous edition sold 9500 copies world wide since its release in 1996.

Based on numerous courses given by the author to students and researchers in the health sciences and is written with such readers in mind.

Provides a "user-friendly" layout and includes numerous illustrations and exercises.

Written in such a way so as to enable readers learn directly without the assistance of a classroom instructor.

Throughout, there is an emphasis on presenting each new topic backed by real examples of a survival analysis investigation, followed up with thorough analyses of real data sets.

Gilbert Westmoreland:

Information is provisions for individuals to get better life, information nowadays can get by anyone from everywhere. The information can be a expertise or any news even a huge concern. What people must be consider when those information which is in the former life are challenging be find than now could be taking seriously which one works to believe or which one the particular resource are convinced. If you get the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Survival Analysis: A Self-Learning Text (Statistics for Biology and Health) as the daily resource information.

Bernard Taylor:

As a scholar exactly feel bored to reading. If their teacher expected them to go to the library or make summary for some book, they are complained. Just small students that has reading's heart or real their passion. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that reading is not important, boring in addition to can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Survival Analysis: A Self-Learning Text (Statistics for Biology and Health) can

make you really feel more interested to read.
