Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) Lawrence Klein

This book describes the benefits of sensor fusion as illustrated by considering the characteristics of infrared, microwave, and millimeter-wave sensors, including the influence of the atmosphere on their performance, sensor system application scenarios that may limit sensor size but still require high resolution data, and the attributes of data fusion architectures and algorithms. The data fusion algorithms discussed in detail include classical inference, Bayesian inference, Dempster-Shafer evidential theory, artificial neural networks, voting logic as derived from Boolean algebra expressions, fuzzy logic, and detection and tracking of objects using only passively acquired data. A summary is presented of the information required to implement each of the data fusion algorithms discussed.

Weather forecasting, Earth resource surveys that use remote sensing, vehicular traffic management, target classification and tracking, military and homeland defense, and battlefield assessment are some of the applications that will benefit from the discussions of signature-generation phenomena, sensor fusion architectures, and data fusion algorithms provided in this text.

Contents

- List of Figures
- List of Tables
- Preface
- Introduction
- Multiple Sensor System Applications, Benefits, and Design Considerations
- Data Fusion Algorithms and Architectures
- Classical Inference
- Bayesian Inference
- Dempster-Shafer Evidential Theory
- Artificial Neural Networks
- Voting Logic Fusion
- Fuzzy Logic and Fuzzy Neural Networks
- Passive Data Association Techniques for Unambiguous Location of Targets
- Retrospective Comments
- Appendix A: Planck Radiation Law and Radiative Transfer
- Appendix B: Voting Fusion with Nested Confidence Levels
- Index

From reader reviews:

Laurel Ramer:

Playing with family in a park, coming to see the sea world or hanging out with close friends is thing that usually you may have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC), you may enjoy both. It is excellent combination right, you still want to miss it? What kind of hangout type is it? Oh can happen its mind hangout fellas. What? Still don't obtain it, oh come on its known as reading friends.

Breanne Gardner:

Is it an individual who having spare time after that spend it whole day by watching television programs or just laying on the bed? Do you need something totally new? This Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) can be the reply, oh how comes? A fresh book you know. You are so out of date, spending your extra time by reading in this new era is common not a nerd activity. So what these books have than the others?

Joseph Johnson:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library in order to make summary for some guide, they are complained. Just very little students that has reading's spirit or real their hobby. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) can make you feel more interested to read.

Stephen Lee:

Reading a e-book make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is published or printed or outlined from each source this filled update of news. In this particular modern era like now, many ways to get information are available for an individual. From media social including newspaper, magazines, science book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just seeking the Sensor and Data Fusion: A Tool for Information Assessment and Decision Making (SPIE Press Monograph Vol. PM138SC) when you essential it?
