Treatise on the Apparitions of Spirits and on Vampires or Revenants of Hungary, Moravia, et al.: The Complete Volumes 1 and 2: Expanded edition. Dom Augustin Calmet

A treatise of a 1700's abbot monk Augustin Calmet surfaced two centuries ago regarding the supernatural and scientific phenomenon that plagued Europe in an era when Magic, witchcraft, demonology, instances of haunting and even cases of vampires were recorded in historical documentation. It was during the age of reason when a Black Monk from the Benedictine Order of the 18th century, penned a work that would become one of the most influential and controversial works of his time. A plethora of cases regarding events in the supernatural had plagued mankind with fear and mystery throughout history, many inhabitants to the regions of Europe came under an epidemic of social hysteria which steamed from reports of corpses rising from their graves, killing and sucking the blood of victims inhabiting small villages or visitations and the haunting of ghosts, evil spirits and demons. The Black Monk, Abbot Don Augustin Calmet tasked himself with the study of these real and historically documented reports for the purpose of providing the public with the rules to determine a claim's legitimacy through philosophical reasoning and scientific examination that was approved by the King of France in 1746. This work provides an in depth look into the history of most superstitions, mythologies, the analysis of events depicted in ancient texts from various religions and historically renowned cases which had in fact occurred.

Calmet lays out the rules for determining the fraudulent claims from the real while also providing a "how to" manual when dealing with or investigating occult matters in witchcraft, ghosts, vampires and demonic possessions. This work was written by an ordained abbot monk and was accepted by European society as scientific research in his time.
