Varieties of Capitalism: The Institutional Foundations of Comparative Advantage

Varieties of Capitalism: The Institutional Foundations of Comparative Advantage

What are the most important differences among national economies? Is globalization forcing nations to converge on an Anglo-American model? What explains national differences in social and economic policy? This pathbreaking work outlines a new approach to these questions. It highlights the role of business in national economies and shows that there is more than one path to economic success. The book sets a new intellectual agenda for everyone interested in relations between politics, economics, and business.
