**Aluminum Alloy Castings: Properties, Processes And Applications** J. Gilbert Kaufman, Elwin L. Rooy  
Aluminum Alloy Castings provides property and performance data for all types of aluminum alloy castings and reviews and describes the factors that contribute to and affect those properties, including composition, microstructure, casting process, heat treatment, and quality assurance. The volume features extensive collections of property and performance data, including previously unpublished aging response curves, growth curves, and fatigue curves. These data are presented in consistent formats to enable easy comparisons among different alloys and tempers. The authors have endeavored to address all of the casting process technologies available for aluminum alloys. Engineering information is included for expendable mold, permanent mold, and pressure die casting processes and their variations. The focus of the process coverage is to review the effects of process selection and process variables on casting properties and performance. Representative examples of aluminum castings applications are provided. This book will be of significant value to materials and design engineers involved in the evaluation, selection and specification of aluminum casting applications and to casting producers as a means of better understanding, quantifying, improving, and promoting the performance characteristics of aluminum castings.

### **From reader reviews:**

#### **Tonia Jensen:**

As people who live in the actual modest era should be change about what going on or details even knowledge to make these individuals keep up with the era and that is always change and make progress. Some of you maybe will probably update themselves by examining books. It is a good choice for you personally but the problems coming to an individual is you don't know what kind you should start with. This Aluminum Alloy Castings: Properties, Processes And Applications is our recommendation so you keep up with the world. Why, because this book serves what you want and need in this era.

#### **Thelma Burke:**

This Aluminum Alloy Castings: Properties, Processes And Applications is completely new way for you who has fascination to look for some information given it relief your hunger info. Getting deeper you onto it getting knowledge more you know or else you who still having little bit of digest in reading this Aluminum Alloy Castings: Properties, Processes And Applications can be the light food for yourself because the information inside that book is easy to get simply by anyone. These books create itself in the form that is certainly reachable by anyone, yeah I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this book is the answer. So there is no in reading a guide especially this one. You can find actually looking for. It should be here for a person. So , don't miss the item! Just read this e-book style for your better life as well as knowledge.

#### **Maria McGhee:**

You can find this Aluminum Alloy Castings: Properties, Processes And Applications by browse the bookstore or Mall. Just viewing or reviewing it might to be your solve issue if you get difficulties for the knowledge. Kinds of this reserve are various. Not only by simply written or printed but can you enjoy this book by e-book. In the modern era similar to now, you just looking by your local mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still change. Let's try to choose suitable ways for you.

#### **Rodney Natale:**

What is your hobby? Have you heard that question when you got scholars? We believe that that query was given by teacher with their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person including reading or as looking at become their hobby. You have to know that reading is very important and book as to be the point. Book is important thing to provide you knowledge, except your current teacher or lecturer. You find good news or update in relation to something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is actually Aluminum Alloy Castings: Properties, Processes And Applications.
