Teach your children about the animals of the forest with this fun and educational book. Five animals – a brown bear, wolf, squirrel, otter and deer – are explored through rhyme, pictures and pull-out cards. With two spreads dedicated to each animal, adults will be able to read the short playful rhyme on each spread to children and look at the bright illustrations to teach them about their habits and environment. Children will then be able to pop out the card animals from the perforated pages contained in a pocket at the back of the book and create 3D figures simply by folding and adding a bit of glue. The inside of the dust jacket is printed full color with a graphical representation of the animals' environment. Children have the option of using this as a backdrop to create a forest scene, and there are also accessories to make and add to the scene.
