## Excelling at Chess Calculation: Capitalizing On Tactical Chances Jacob Aagaard

There are many differing opinions among the top players in the world of chess, but there is one thing upon which World Champions, Grandmasters, and other experts all agree: the art of chess calculation is the absolute key to the success of a player. Master this discipline and chess players can surely expect their results to improve dramatically. And yet there have been very few serious attempts in the past by chess authors to delve into this delicate topic, perhaps not surprisingly given its complexity and difficulty. In *Excelling at Chess Calculation*, Jacob Aagaard tackles the subject matter head on, unravelling the many secrets behind chess calculation and arming readers with the necessary tools to be able to calculate effectively at the chessboard. Aagaard pays particular attention to the searching practical questions like "when should players calculate?", "how can players discover candidate moves?", and "how long should players spend on critical moves?". A thorough study of this book will enable them to calculate with confidence in future games.

Highlights include:

- \*A crucial guide to the skill of chess calculation
- \*Ideal for both club and tournament players
- \*Written by a renowned chess coach and author
