The study assesses the degree of thematic unity present in the complete poetic works of Pedro Salinas. The principal thematic thrust of his work is best captured by his own phrase "la reconquista de la entereza del hombre". This quest for "entereza", or wholeness, has emotional, ontological and linguistic resonances, and is evident in Salinas's poetic expression, as he subverts inherited semantic order built on Cartesian models. Accordingly, the categories of human experience traditionally regarded as antithetical, are absorbed in his vision. Chapter titles point up the erosion of distinctions between such categories as abstract and concrete reality, the metaphysical and the physical, absence and presence, and the processes of accumulation and elimination. The critical emphasis accorded to this poet's pre-1936 love poetry has overshadowed his public voice, and the predominantly social concerns of his later work. Whether as a theme or a linguistic aspiration the concept of "entereza" represents an important unifying factor in his work.
