## **Fabulous Fractals** Ed Seeman

Ed Seeman was a professional artist, photographer and cartoon cel animator for four decades. In 1960s New York, his oil paintings were represented by “East Hampton Galleries” on 57th Street and one of his works was in the New York Metropolitan Museum of Modern Art for three years. Five of Seeman’s experimental films are in the US Library of Congress and, most notably, his Frank Zappa and the Mothers of Invention film won a Cine Gold Eagle at the Venice Biennial. In the process of using computer technology to paint his hand drawn cel animations, Seeman discovered the tremendous digital potential for experimentation in color and abstract form. Thereafter embracing the Giclee method of printing to canvas, he created artistic works from the digital realm that truly reflected the myriad preoccupations of our times. With these technologically enhanced painting tools, Seeman produces uniquely stunning digital abstract artworks.
